

B.U.S. Professional Consultant Services Available

Every architectural and urban design project takes committed collaboration between a Project Owner/Representative, the BUS architectural staff, and a team of skilled design professionals as well as skilled contractors, tradesmen, and material suppliers. Depending upon the project type, size, complexity, and the demands of the City Agencies, the proposed B.U.S. team needed to perform the necessary services may include:

1. Surveyor
2. Civil Engineer
3. Structural Engineer
4. Title 24 Energy Compliance Consultant
5. Landscape Architect
6. Geotechnical Engineer
7. Environmental Engineer
8. Mechanical/Plumbing Engineer
9. Electrical Engineer
10. Low Voltage Systems Engineer
11. Lighting Designer
12. Interior Designer
13. Fire Sprinkler Engineer
14. Testing Engineer
15. Cost Estimator
